Classroom Rules Task

Create a poster which can be displayed in all of the computer rooms to remind students about the ICT rules.

You should include the following:

1. No food or drink in any of the ICT classrooms.
2. No running in the classrooms.
3. All bags should be stored under the workstation
4. Students must stay at their own workstation and not interfere with other students' work.
5. Students must not touch or play with any wires or sockets.
6. Students must not swing on their chairs or push them around the room.
7. Students should only access their own user areas

Think about layout, colours, fonts and images.

Be creative and imaginative and make the finished poster look as professional as possible – it doesn't have to be a list, you could use callouts, boxes, speech bubbles etc.
